

Welcome to the University of Technology Sydney (UTS)

Before you begin the enrolment process, it is important that you visit the [Starting at UTS page](#) and download the [Enrolment guide](#) (PDF, 1.2MB). You should also access the [UTS Handbook](#) and refer to the Course Program section within your specific course.

ORIENTATION

Orientation has been designed to help you, as a new student to fully maximise your university experience and it will provide you with useful information about:

- UTS support services
- academic and professional development
- clubs and activities
- your faculty
- your new campus and facilities.

[Register now](#)

It is essential that you stay on track with your work from the beginning of the session to avoid falling behind. It is important that you log into [UTS Online](#) and undertake the **preparation tasks** for the subjects in which you have enrolled.

These tasks may include: downloading and reviewing the subject outline and engaging with the materials (readings, videos, podcasts etc.) posted by your lecturers.

Note: *Subject outlines will be available from the start of orientation. Other materials will be available by the session start date.*

It is mandatory that students complete these subject related tasks.

RESPECT.NOW.ALWAYS.

We believe that everyone has the right to live and study safely without prejudice. By joining our community, you value the same.

As part of your UTS student responsibilities, you're expected to take [online training](#) about healthy relationships, appropriate behaviour and being an active bystander. Complete it in UTSONline before results release date to avoid a sanction.
